# Hyundai new vehicle warranty policy and period.

## Unlimited kilometre warranty.

Hyundai motor vehicles are manufactured using high quality materials and progressive engineering technology in conjunction with advanced quality control techniques.

Hyundai warrants against defects arising in materials or manufacture for all vehicles\* other than vehicles used at any time during the warranty period for commercial^ application.

The warranty periods indicate that a vehicle warranty is valid until expiry of the stated period commencing from the date the vehicle was first registered, put into use, or the date upon which the vehicle travels the stated kilometres, whichever occurs first.

# Transfer of ownership.

## **Warranty transfer – change of ownership details.**

The Hyundai New Vehicle Warranty may be transferred with the vehicle to a new owner.

In the event of a change of ownership or a change to owner details, updates can be made on-line via 'myHyundai' on our website [www.hyundai.com.au](http://www.hyundai.com.au).

Under no circumstances can this policy be transferred to another vehicle. This warranty is cancelled if the vehicle is written off or disposed of by an insurer.

## **Vehicle usage history.**

The entitlement to the unlimited kilometre warranty offered by Hyundai depends on vehicle usage history. It will be the purchaser's responsibility to obtain and provide Hyundai with information and records such as details on how the previous owner/s used the vehicle, details on how the vehicle is currently used, the vehicle's service history and other vehicle records. This information or those records may be required by Hyundai to validate warranty status when requesting warranty repairs. (Refer to Owner Responsibility on Page 8).

## **Note**

*Vehicles used or previously used in commercial application will not be eligible to unlimited kilometre warranty.*

## Customer support.

It is the responsibility of the customer to bring to the attention of the Hyundai Dealer any matters which give cause for complaint except for repair or service work carried out by other than a Hyundai Dealer and to give the dealer the opportunity to rectify such matters. In the unlikely event of a situation arising which the customer believes has not been attended to in a professional manner, the following suggestions are made to assist with resolving the matter.

1. We recommend that matters directly involving your preferred Hyundai dealer to be raised with the Dealer Service Manager.
2. If satisfaction cannot be obtained from the Service Department, contact with the Dealer Principal should be established, in writing if necessary.
3. In the unlikely event that a satisfactory response is not obtained from the Dealer Principal, written contact should be established with:

# Maintenance and service requirements.

To ensure the continued reliability and safety of the vehicle, certain Routine Maintenance Service operations are required at specific kilometre or time intervals as follows:

## **Petrol engine – non turbo.**

- Routine scheduled service
  - every 15,000km or 12 months\* .
- Optional intermediate service
  - every 7,500km or 6 months\* (refer to page 16 for details)

## **Petrol engine – turbo.**

- Routine scheduled service
  - every 10,000km or 12 months\*
- Optional intermediate service
  - every 5,000km or 6 months\* (refer to page 16 for details)

## **Diesel engine – turbo.**

- Routine scheduled service
  - every 15,000km or 12 months\*
- Optional intermediate service
  - every 7,500km or 6 months\* (refer to page 16 for details)

It is the responsibility of the vehicle owner to ensure that the maintenance schedules shown in the owner's manual are adhered to. Lubrication and fluid specification guides can be found in your owner's manual.

The new vehicle warranty may be invalidated if the Routine Maintenance Schedule operations are not performed in line with the requirements outlined.

The required scheduled maintenance may be carried out by other than Hyundai dealers, however the service provider must comply with the requirements of the warranty and issue detailed auditable invoice documentation to substantiate that the maintenance was carried out as per manufacturer's recommendation for the warranty to remain valid.

All warranty claims must be made through an authorised Hyundai dealer and all warranty work must be carried out by an authorised Hyundai dealer.

Please check our website at [www.hyundai.com.au](http://www.hyundai.com.au) to locate your nearest authorised Hyundai dealer.

In addition, the use of genuine Hyundai replacement parts will ensure that the vehicle's safety, performance and warranty will not be compromised. Use of non genuine parts of a lesser quality than that supplied by Hyundai may affect warranty conditions.

### **Note**

The inspection and testing of certain electronic fuel injection/engine management and automatic transmission control systems requires specialised electronic equipment specifically designed for Hyundai vehicles. The use of general purpose electrical test equipment may result in damage to the electronic control unit microprocessors.

\* Whichever occurs first.

**AWD tyres and replacement.**

Due to the AWD characteristics of these vehicles, it is important to keep tyre wear and the tyre rolling diameter on all wheels even, including the spare wheel. A difference in the rolling diameter between tyres can cause overheating of the AWD mechanism resulting in premature failure of drivetrain components.

Differences in tyre rolling diameter can be expected with mismatched tyres, different branded tyres or combination of new and partially worn tyres.

It is therefore recommended that when tyres reach the end of their service life, all 4 tyres be replaced together. This ensures correct operation of the AWD system. Please note that if the spare tyre is of a different brand, size or tread pattern to those replaced, it can cause driveability issues with the AWD system if fitted to the vehicle. Ensure that all tyres (5) match accordingly.

**Optional intermediate service  
- vehicles driven under demanding conditions.**

Not all Hyundai's are operated in the same way. Some driving conditions place more stress and strain on your vehicle than other conditions.

Certain maintenance procedures must be performed more frequently on vehicles normally used under high usage or demanding driving conditions. This will ensure your Hyundai maintains peak operating performance.

Your authorised Hyundai dealership can advise you on the benefits of an Optional Intermediate Service for your vehicle's operating conditions. You are responsible for properly maintaining your Hyundai vehicle in accordance with the vehicle maintenance requirements described in your owner's manual.
